

## **§ 4-206. Monthly support.**

The combined monthly net income of both parties from line 4 of worksheet 1 is compared to table 1. For example, if the combined monthly net income was \$2,000 and there were three children, we would find \$712 as the child support from table 1 (read across the table from \$2,000 to the "Three Children" column to find \$712).

*Paragraph F amended effective Jan. 1, 1996; amended Nov. 26, 2003, effective Jan. 1, 2004. Renumbered and codified as § 4-206, effective July 18, 2008; § 4-206 amended September 25, 2019, effective January 1, 2020.*
