

Nebraska Office of Dispute Resolution Administrative Office of the Courts 2016/2017 Annual Caseload Report

Annual Caseload Statistics for ODR-Approved Mediation Centers. Nebraska's mediation centers had a case volume of 4,440 mediation cases in 2016/2017. Mediation referrals from the courts amounted to 54% of all new cases referred to the mediation centers. Parenting Plan cases continued to be the highest and most significant types of cases handled during the year, amounting to 2,664 or 60% of the total case volume for the period. Child welfare/Juvenile justice cases referred by Nebraska juvenile county courts, probation, and diversion represented the second highest case volume of 903 or 20% of the total case volume.

The six regional non-profit mediation centers' volume from 1992 through 2017 is shown above in Figure 1. Case volume represents the total number of cases that were open and worked on during the fiscal year. The dip in FY99-00 was a result of the closing down of a small claims mediation program for Douglas County based upon insufficient funds. Since that time, there has been a gradual, consistent increase in mediation cases from year-to-year; however, a slight decrease is noted for FY14-15, likely due to a shift in child welfare conferencing referrals from HHS to the courts, as well as an increase in private parenting mediations. In FY15-16, the number of

mediation cases not only increased from the FY14-15 case decline, but also exceeded the volume of all previous years. This fiscal year, 16-17, the dip can be attributed to a 25% (722/960) decrease in General/Community cases from the 15-16 fiscal year as a result of fewer referrals from the courts.

The *Cumulative Mediation Case Data Report* (page 3) provides a more detailed description of mediation services for the period of July 1, 2016 through June 30, 2017 according to mediation center, case type, and referral source. The six ODR-approved mediation centers and their regions are shown in the map below.
