

Probation Service Definition

ADMINISTRATIVE OFFICE OF PROBATION

Setting Professional office environment, clinic, mental health substance use center, private practice, teleservice or other setting appropriate to the provision of outpatient services. Facility License As required by the Nebraska Department of Health and Human Services (DHHS) – Division of Public Health. Service Description Based on a recommendation from a Substance Use Assessment/Evaluation, Substance Use Outpatient Treatment is a scheduled therapeutic encounter between the licensed clinician and the individual for the purposes of treating a substance use disorder. The focus of outpatient counseling is to improve or alleviate symptoms that may significantly interfere with functioning in at least one life domain (e.g., familial, social, occupational, educational, etc.). The goals, frequency, and duration of outpatient treatment will vary according to individual needs and response to treatment. Services may be delivered in individual, group or family sessions. Service Expectations • A comprehensive Substance Use Assessment/Evaluation must be completed by a licensed clinician prior to the beginning of treatment. • If a recent Substance Use Assessment/Evaluation is determined to be clinically relevant and includes a current diagnosis and level of care recommendation, it can serve as the admission assessment. If the prior assessment is not relevant or does not contain the necessary information, then a Substance Use Addendum would be necessary. • Client must meet current ASAM (American Society of Addiction Medicine) criteria for admission and continued stay. • Substance Use Outpatient treatment should address mental health needs and/or co-occurring disorders.
