

ADMINISTRATIVE OFFICE OF PROBATION

Service Interpretive Guidelines **Sex Offense-Specific Polygraph Examination**

SERVICE DEFINITION:

Polygraph testing involves a structured interview during which a trained examiner records several physiological responses of the examinee. Following this interview, the examiner reviews the charted record and forms opinions about whether the examinee was non-deceptive or attempting deceptions when answering each of the relevant questions. This service is for clients currently involved in sex offense-specific treatment when the provider indicates a clinical need for a Sex Offense-Specific Polygraph Examination.

EXPECTATIONS / REQUIREMENTS:

- This service is used only during the course of sex offense-specific treatment and only when a provider indicates the need for the service.
- The frequency of the service will vary based on the reason for the polygraph and will be determined collaboratively between the probation/problem-solving court staff member, treatment provider and polygraph examiner.
