

Probation Service Definition

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

| | |
|-----------------------------|---|
| Service Name | Electronic Monitoring <input checked="" type="checkbox"/> Adult <input type="checkbox"/> Juvenile |
| Category | Supportive Service (non-clinical, non-treatment) |
| Setting | Community-based |
| Facility License | Licensure is not required for this service |
| Service Description | <p>Electronic monitoring (EM) is an electronic system for high-risk clients to enhance community safety. EM provides the probation/problem-solving courts staff member a notification, or alert, when a client leaves his/her home when he/she is required to remain home or when the client enters an exclusion zone (a geographic area where they are not permitted to go). There are two types of EM technology used by Probation: Radio Frequency (RF) and Global Positioning System (GPS).</p> <p>Radio Frequency (RF) is designed for individuals who are in need of stabilization and structured scheduling when outside of their residences. This technology tracks the departure and return of clients from their residence and allows for daily schedules and curfews to be set. The targeted population includes individuals currently under supervision for a property crime; a history of missing appointments, including employment; struggles with time management, life management, or substance use; or overall irresponsibility and instability.</p> <p>Global Positioning System (GPS) is reserved for individuals who pose a threat to community safety, and includes sharing with law enforcement that GPS technology is in use. This technology tracks the whereabouts of a person on a real-time basis and can include exclusion zones. The targeted population includes individuals currently under supervision for a crime involving a victim; a history of violence [current or prior conviction within the past three (3) years]; gang members (known or suspected affiliation verified by law enforcement); and individuals who have a current or previous conviction for the distribution/sale of drugs.</p> |
| Service Expectations | EM services are to be provided by qualified providers who are selected through a competitive procurement process. Probation requires the use of the newest technologies and techniques within each type of monitoring in order to maximize the efficiency and effectiveness of monitoring clients. Specific service expectations are specified in the applicable competitive procurement documents. |
| Service Frequency | The service is provided continuously while authorized by Probation, 365 days per year and 24 hours per day. |
