

Case Progression and Court Improvement Data Report for 2010

District 2 Team 3: Sarpy County

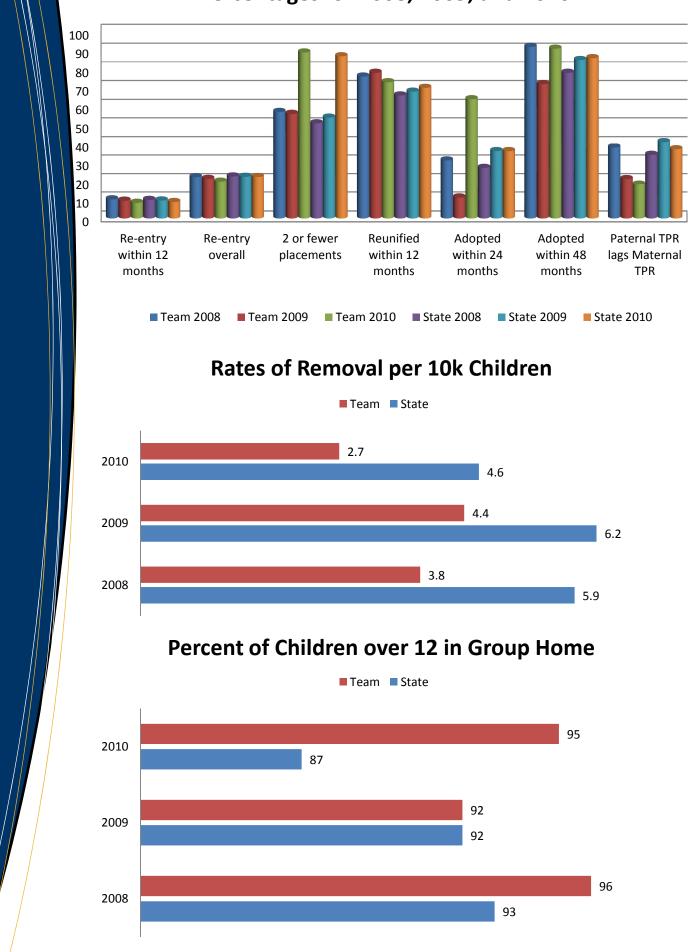

Information provided in this document is designed to help your team improve case progression, as this is one area the courts can control. Timeliness of hearings has a significant impact on time to case closure, which means that courts can make a difference in the lives of children in the system. Data on Court 2 pages 1 and come from Fostering Improvement (fosteringcourtimprovement.org/ne) and data on pages 3-8 were collected through JUSTICE to track case progression timelines for all abuse/neglect cases that closed in 2008, 2009, and 2010.

		Team			State		Nationa
	2008	2009	2010	2008	2009	2010	2009
Poverty rate*	7.1%	7.2%	n/a	13.7%	15.3%	n/a	20%
Median length of stay	8 months	7 months	10 months	13 months	12 months	14 months	14 months
Median months to reunification	5 months	5 months	8 months	7 months	7 months	11 months	n/a
Median months to adoption	30 months	34 months	20 months	34 months	29 months	29 months	n/a

* Poverty data comes from the U.S. Census Bureau. For the Fostering Court Improvement measures, 2010 refers to data from April 2010 through March 2011.

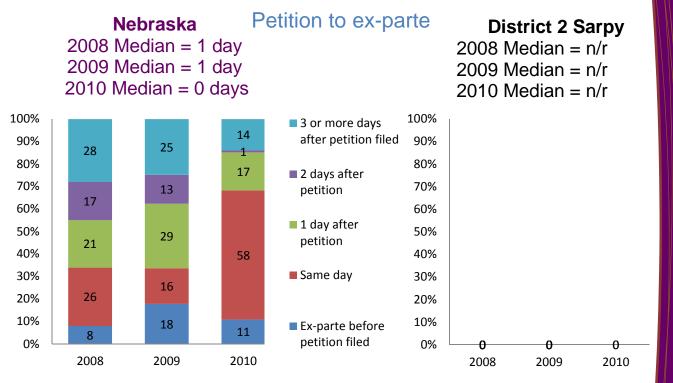

Percentages for 2008, 2009, and 2010

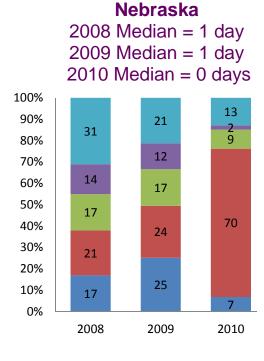

In Sarpy County, there were 118 abuse and neglect cases that closed between January 1 and December 31, 2008 In 2009, 99 such cases closed. In 2010, 115 abuse and neglect cases closed. The analyses below are based on that data.

Medians represent the center-point for cases in your team. Half of your cases had time that was shorter than the median, and half of cases had time longer than the median. **N/r** means values were "not reported." **N/a** means "not applicable" because the sample size was too small for analyses to be conducted.

Infants and toddlers make up approximately one-third of children in foster care in Nebraska. This early stage of the child's life is crucial to his/her development. Therefore, the court system must do everything it can to ensure timely and safe permanency for them. Additionally, the courts need to assure that the health, mental health, and educational (school readiness) needs of these young children are met.

Your team might work on one or all of the following:

- Reducing time to permanency for infants and toddlers
- Ensuring that parenting time recommendations are followed
- Increasing the use of high quality and stable child care
- Ensuring CAPTA Part C evaluations are occurring and young children are getting services they need
- Ensuring that infants and toddlers with mental health needs get evidence based interventions

Trends

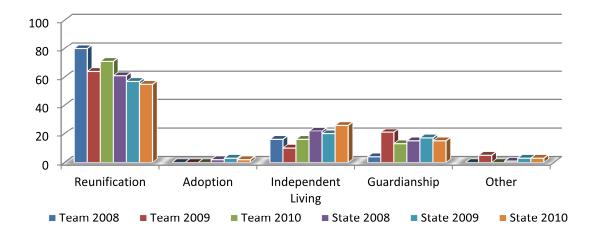

Sarpy County data suggests an increase in length of stay in foster care, time to reunification, and time to case closure from 2009 to 2010, but these timelines are still well below state averages and are within best practice guidelines. Still, the team may want to take a look at whether there has been an erosion to improvements in timeliness. One concern is that it appears that most youth over age 12 are in congregate care.

Adolescents Case Progression and Outcomes
