Adult Community Corrections Programs, Centers, Tools, Services and Supervision Annual Report

Fiscal Year 2024 – July 1, 2023, to June 30, 2024

This annual report contains information on the development and performance of Nebraska Probation's Adult Community Corrections programs, centers, tools, services, and supervision. The report is required according to Neb. Rev. Stat. 47-624(11), amended in 2010 by AM1679 to LB864, which requires the Crime Commission to report annually to the Legislature and the Governor on the development and performance of community corrections facilities and programs. This annual report fulfills this statutory obligation.

The purpose of this report is to properly identify the most important factors related to the community correction's population on community supervision, evaluate costs of programming, and to conduct an evaluation of the progress made in expanding community corrections centers, programs, and services statewide.

Reports are available at: [Publications & Reports | Nebraska Judicial Branch](#)

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Administrative Office of the Courts and Probation 2023-2024 Fiscal Year Report on Adult Community Corrections Programs, Centers, Tools, Services, and Supervision

Executive Summary

The Administrative Office of the Courts and Probation (AOCB) make lasting changes in local communities by assisting both juveniles and adults to become productive members of society. Nebraska Probation utilizes individualized approaches, focused on evidence-based principles and practices, and employs a dedicated and skilled professional staff to meet its goals. Providing purposeful interventions, Nebraska Probation strives to positively impact community safety across all 93 of Nebraska's counties and 12 Judicial Districts. Probation's programs and services were implemented in such a way as to create constructive change through rehabilitation, collaboration, and partnerships, in order to provide meaningful services to communities, victims and courts.

Probation utilizes actuarial based, normed, and validated risk and needs-based assessment tools to guide in its decision-making, resource allocation, service provision and case management. These assessment instruments are the foundation for everything the Probation Officer does, which includes the compilation of Presentence Investigations (PSIs), the classification of adult probationers for supervision and case management, and the determination of interventions needed to help reduce the risk of recidivism or mitigate the needs that led the individual before the Court.

Probation is community corrections at its very core. As a true alternative to incarceration, probation "supervises," or provides case management across a myriad of risk levels – from those individuals assessed to be at the very highest risk to recidivate to those assessed to be at the very low risk to recidivate – covering a gamut of misdemeanor and felony offenses.

With the passing of Justice Reinvestment Initiatives (JRI) during the 2015 and 2016 Legislative Sessions, JRI officially commenced in Nebraska during the 2015-2016 fiscal year. As such, all individuals convicted of lower-level felonies (Class 3, 3A, and 4 Felonies) committed after the effective date of the new law were presumed to be destined for probation.

In an effort to reduce the number of individuals revoked from probation for technical (non-criminal, substance use, etc.) reasons, administrative and custodial sanctions are included in probation's incentives and sanctions matrix as an alternative for Courts and Probation in lieu of formal revocation proceedings. Once probation officers have exhausted all reasonable efforts to gain compliance through the utilization of administrative sanctions, such as treatment or other program referrals, they may request the imposition of custodial sanctions. Only the court can impose the custodial sanction.

Statutorily, custodial sanctions of "up to three days," and "up to 30 days," are included on probation's Incentives and Sanctions Matrix. An individual must serve a minimum of 90 days of custodial sanctions, as imposed by the court, before formal revocation proceedings can be initiated in felony cases.

A tenet of evidenced-based practice and justice reinvestment efforts calls for the reinforcement or incentivizing of positive behavior change. Probation's Incentives and Sanctions Matrix provides for probationers, with limited exceptions, to earn an early discharge from their term of probation and post-release supervision in accordance with Supreme Court Rule, based on their performance while under supervision and a measurable reduction in their assessed risk to recidivate. This is also a critical feature of JRI, as probation resources continue to shift towards case managing the highest risk individuals, making it imperative that lower-risk individuals are released when appropriate, freeing up the probation resources needed to make this successful.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Under the structure of the Nebraska Supreme Court and the Administrative Office of the Courts and Probation, Probation has worked faithfully to improve the safety of all Nebraskans, ensure crime victims have a voice and, moreover, to assist all juveniles and adults under our supervision to become productive citizens. Nebraska Probation utilizes individualized approaches focused on evidence-based principles and practices and employs a dedicated and skilled professional staff to meet its goals.

During Fiscal Year 2023-24, the positive impact Probation made on community safety was demonstrable. Justice Reinvestment (JRI) efforts in Nebraska continue to reflect how Probation is a cost-effective means of accomplishing community safety and exemplifies community corrections.

The following data solely focuses on adult individuals served by the Administrative Office of the Courts and Probation.

During FY23-24 the Administrative Office of the Courts and Probation:

- ❖ Completed 10,914 presentence investigations (PSIs), and 561 post-release supervision plans.
- ❖ Provided case management for 10,397 high-risk to recidivate individuals in their communities.
- ❖ Supervised 1,257 individuals under post-release supervision.
- ❖ Observed a reduction in the overall risk-level of high-risk to recidivate individuals in probation, post-release supervision, and problem-solving courts upon successful completion of supervision.
- ❖ Collected 512,797 drug tests on 17,503 unique individuals (Probation and Problem-Solving Courts) or an average of 29 chemical tests per adult individual under supervision.
- ❖ Administrative Sanction use increased by 2.6% to 15,831 and Custodial Sanctions decreased 3.9% to 1,719.
- ❖ As of June 30th, 2024, the statewide recidivism rate for the adult probation population is 19%.
- ❖ Nebraska Probation Reporting Centers had 80,381 visits by 7,161 probation, post-release supervision, and problem-solving court individuals who accessed programming or groups.

Administrative Office of the Courts and Probation:

- ❖ Continued to be a cost-effective means of rehabilitation and community safety. During FY23-24, probation community supervision costs by individual:
 - Approximately \$4.70 per day to supervise a medium- to low-risk to reoffend probationer.
 - Approximately \$7.07 per day to supervise a high-risk to reoffend probationer.
 - Approximately \$19.56 per day to supervise individuals in Alternatives to Incarceration programs such as Specialized Substance Abuse Supervision (SSAS), Reframe, Post-Release Supervision (PRS) and Transitional Intervention Program (TIP).
 - Approximately \$14.42 per day to supervise participants in a Problem-Solving Court.

Adult programs and services are funded through a combination of General Funds and Cash Funds. The major source of Cash Fund revenue are monthly fees paid by individuals when placed on probation. Additional resources, which help to support victim services, are received from federal resources.

Please note the approximate cost per day to supervise an individual is based on the total cost of probation personnel and operating expenses divided by the total population of individuals supervised.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Programs & Responsivity

Methods used by the Nebraska Probation System to accomplish case management includes a variety of program strategies relative to evidence-based research. These include assessment, motivational interviewing and developing professional alliance, identifying the driver of precipitating behaviors, treatment matching, facilitating cognitive behavioral groups and skill building, engaging positive support systems, case planning, and the use of relevant supervision tools.

Additionally, case management contributes to an increased level of safety and welfare for the community. Case management targets risk reduction by focusing on the assessed criminogenic need areas through meaningful contacts and referrals as needed. Because certain populations of individuals present unique challenges in case management, special approaches to case management and intentional programming are used to target these unique needs.

Services

Reporting Centers – Reporting centers across Nebraska were created to establish a central location for a continuum of services accessed by individuals under supervision in their communities as a means of providing community safety, accountability, and rehabilitation. By pooling state and county resources, these reporting centers provide structured programming that targets an individual's need and enhance their ability to make long lasting positive changes and to be a successful member of the community. These programs and services are evidence-based and tailored to meet the needs of individuals with a wide range of challenges. Services are provided by local community stakeholders, bridging criminal justice and behavioral health. Reporting centers engage high-risk individuals in structured supervision activities targeted to reduce the likelihood of the individual to reoffend. Nebraska Reporting Centers are intended to increase community safety while reducing the high cost of incarceration and prison overcrowding in Nebraska.

Reporting centers are funded by a combination of general fund (staff), cash fund (services through offender fees) and county dollars (operations) under:

Nebraska Revised Statute 47-624 (Develop reporting centers in Nebraska)

Nebraska Revised Statute 47-624.01 (Plan for implementation and funding of reporting centers)

Nebraska Revised Statute 90-540 (Legislative intent to fund Nebraska Probation reporting centers)

The Core programming components offered in each reporting center include:

- Substance Abuse Interventions (Pre-Treatment/Relapse Groups)
- Employment and Educational Classes
- Life Skills Programing
- Cognitive-behavioral groups focused on changing criminal thinking which impacts behavior
- Victim Impact Programming

Reporting centers bring together probation staff and focused community providers to strategically supervise individuals on probation in their communities. Supervision strategies include creating a positive relationship with the individual, having consistent meetings and groups, referring individuals to appropriate programming, and the use of regular and random drug/alcohol testing. All reporting centers have teleservice capability, allowing for shared interaction across Nebraska.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Reporting centers also offer ancillary programming in the following areas:

- Parenting
- Anger Management
- Money Management
- Behavior Change Skill Building
- Domestic Violence Classes
- Trauma groups

Due to the success of the Nebraska State Probation's Reporting Center model, funding was allotted to expand reporting centers to seventeen locations across the State (LB907; LB605). Each successfully discharged reporting center individual who does not reoffend and returns to their community and neighborhood contributes to the overall impact on community safety and reduces the fiscal cost of incarceration and the problem of prison overcrowding.

The Legislature has tasked the AOCB with expansion of community correction alternatives across Nebraska as a means of reducing prison overcrowding while keeping community safety as a priority through offender rehabilitation and accountability (LB605 and Justice Reinvestment).

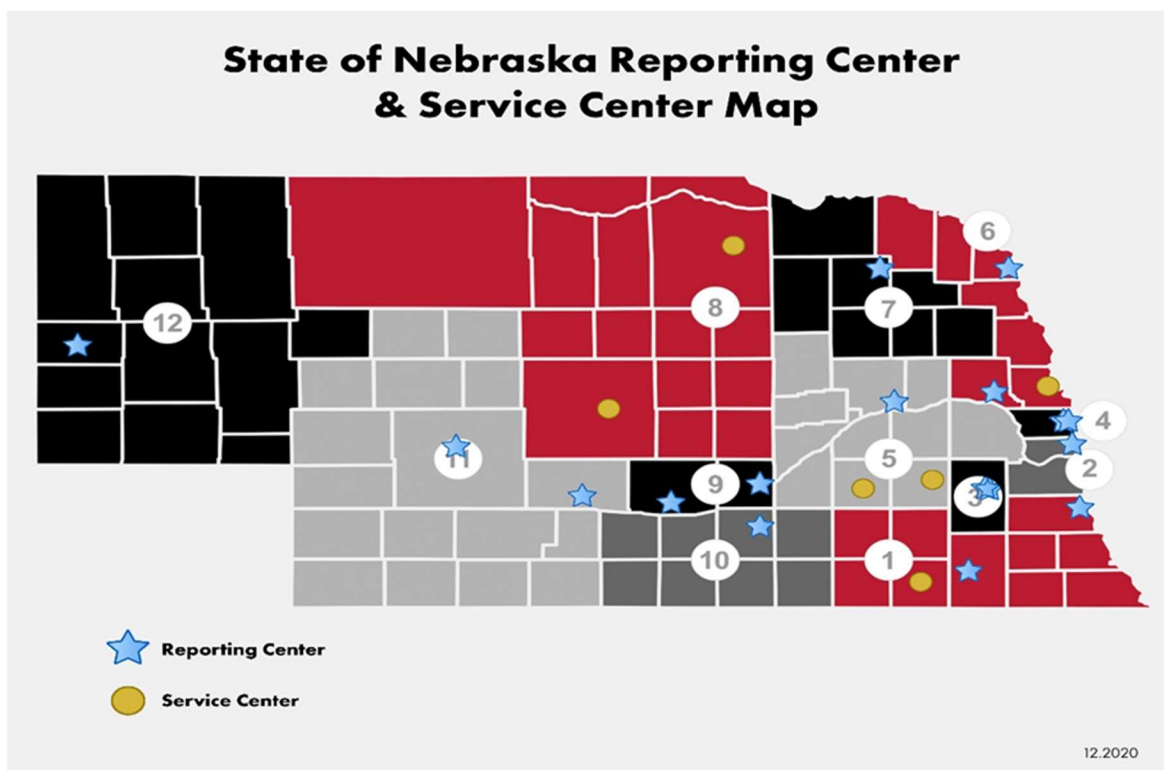

Service Centers -- Probation Service Centers were created in 2011 for the benefit of Judicial Districts that did not currently have a reporting center. The service centers were created to assist individuals in fulfilling court-ordered obligations, addressing high-risk needs, and completing programming or other requirements instituted through the sanctioning process. Service centers serve the same population as reporting centers but are limited in the number of clinical and rehabilitative services offered. There are currently nine service centers operating across Nebraska. Communities served include Broken Bow, Auburn, Fairbury, Falls City, Geneva, O'Neil, Seward, Tecumseh, and York. Service centers are funded by general and cash funds of the Community Corrections program.

Probation Teleservices -- Reporting and service centers have the ability to offer programming via Probation Teleservices. Through the use of audio and visual technology, teleservices help bridge geographical distances that may limit access to resources, such as evaluations and counseling. Teleservice grants Probation the ability to overcome the barriers of the rural nature of the state and provide access to programs and other services where they would otherwise be unavailable.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Alternatives to Incarceration (AI)

Adult Alternatives to Incarceration (AI) Probation encompasses individuals who are considered to be at the highest risk to reoffend, are being supervised by specialized probation officers within a specialized program and/or are participating in problem solving courts. These individuals may also be on post-release supervision (PRS) after completing a term of incarceration for a crime requiring a “split sentence” and are the first priority of supervision resources for the Nebraska Probation System. This supervision level is most successful when a highly intensive level of supervision is utilized in conjunction with appropriate cognitive behavioral interventions, treatment services, and monitoring.

Probation officers use varied hours of operation, field work, close collaborations with community partners, treatment, cognitive programming and all available interventions pertinent to high level of assessed risk, specific to the program in which the probationer is involved, related to any precipitating criminogenic behaviors, and/or as ordered by the Court.

Caseload sizes for officer-to-individual ratios at Alternatives to Incarceration populations is 1-24, with Problem Solving Court caseload sizes also carrying a ratio of 1-24.

Funding for Alternatives to Incarceration comes from the probation general fund. The average cost to supervise an AI probationer per-day is approximately \$19.56.

Alternatives to Incarceration Demographics

Post-Release Supervision (PRS) – With limited exceptions, certain felonies committed on or after August 30, 2015, carry a term of post-release supervision probation. PRS probation is required any time a term of incarceration is imposed by the Court, regardless of the duration, in any Class III or IIIA felony. The passage of LB 686 in 2019 modified the minimum PRS term of nine-months for Class IV Felonies. The maximum PRS terms of up to 12 months is allowed in Class IV Felonies, 18 months in Class IIIA Felonies and up to 24 months on Class III felonies.

**Offense category may not match the number of individuals. This metric is based on most serious offense as identified by the Felony or Misdemeanor class associated with the probationer. In cases where there are multiple convictions of the same class charge that falls into different categories, a single probationer is counted in multiple offense type categories.*

The Administrative Office of the Courts and Probation participated in a research project with the University of Nebraska-Lincoln's Law/Psychology Program, focused on recidivism of the PRS population. The report titled **Predicting Recidivism for Post Release Supervision Releases**, examined the strongest predictors of recidivism for all release types and identified a Post-Release Supervision recidivism rate of 27%. This study also focused on the efficacy of cognitive-behavioral programming offered through Reporting Centers across the state and determined that engagement in Reporting Center programming led to decreased recidivism for individuals under Post-Release Supervision. This factor was so significant that the author concluded that attendance at Reporting Center programming offsets some of the effects of prior criminal history, one of the most powerful predictors of recidivism.

The complete results of this study can be found on the Nebraska Judicial Branch website at <https://supremecourt.nebraska.gov/research-shows-positive-outcomes-felony-probation-supervision>.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Problem-Solving Courts

Research shows Problem-Solving Courts are an effective strategy to reduce substance use and recidivism among substance-using, nonviolent individuals with criminal histories. Nationally, 75% of drug court graduates remain arrest-free at least two years after their release from the program (Finigan, M., Carey, S. M., & Cox, A. 2007).

Nebraska Problem-Solving Courts are post-plea or post-adjudicatory intensive supervision programs designed for high-risk to reoffend and high-need individuals. Nebraska Problem-Solving Courts can only be established with the approval of the Nebraska Supreme Court.

All Nebraska Problem-Solving Courts are governed by the Nebraska Supreme Court Committee on Problem-Solving Courts under the direction of the Nebraska Supreme Court. Members include representatives of courts, probation, law enforcement, and the legal and treatment community. Nebraska Problem-Solving Courts operate within the district, county or juvenile courts in all 12 Nebraska Judicial Districts.

Most Problem-Solving Courts in Nebraska operate under the AOCF, with the exception of the Adult Drug Courts in Douglas and Lancaster Counties. Family Treatment Courts typically operate within both the Courts and the Department of Health and Human Services.

Problem-Solving Courts in Nebraska operate under a team approach where a judge, prosecutor, defense counsel, coordinator, community supervision officer, law enforcement and treatment provider(s) work together to design an individualized program for each participant. Compliance with treatment and court orders is verified by frequent alcohol/drug testing, close community supervision, and interaction with a judge in non-adversarial court review hearings. Problem-Solving Courts enhance close monitoring of participants using home and field visits.

In accordance with evidenced-based research, all Problem-Solving Court participants are screened and assessed for substance use, criminogenic risk to reoffend, mental health concerns, trauma history, and trauma-related symptoms. Nationally, over one-quarter of drug court participants reported having experienced a serious traumatic event, such as a life-threatening car accident, work-related injury, or physical/sexual abuse (Cissner et al., 2013; Green & Rempel, 2012).

The Nebraska Supreme Court Committee on Problem-Solving Courts recognized statewide standards were essential for expanding capacity and ensuring the establishment of best practices and quality assurance. As a result, Best Practice Standards for Young Adult Courts, Adult Drug and DUI Courts, Veterans Treatment Courts, Reentry Courts, and Mental Health Courts were collaboratively developed by stakeholders across Nebraska and approved by the Nebraska Supreme Court. All Nebraska Problem-Solving Courts adhere to approved Best Practice Standards.

Funding for Problem-Solving Courts comes from the Problem-Solving Court general fund. The average per-day cost to supervise a Problem-Solving Court participant is approximately \$14.42.

Nebraska Adult Problem-Solving Court models include, Young Adult Courts, Adult Drug Courts, Veterans Treatment Courts, Reentry Courts, Mental Health Court (Pilot), and DUI Court (Pilot).

Young Adult Courts

The Douglas County Young Adult Court is a judicially supervised program that provides a sentencing alternative, for young adults up to age 26, who have been charged with a felony offense. Key aspects of the Young Adult Court are community supervision, substance use treatment, mental health assistance, education, employment and frequent drug testing. The goal of this 18 to 24 month program is to stabilize participant's lives by providing tools for success, thus reducing recidivism.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Adult Drug Treatment Courts

Nebraska Adult Drug Treatment Courts utilize a specialized team process that functions within the existing court structure. Adult Drug Treatment Courts are designed to achieve a reduction in recidivism and substance use among high-risk to reoffend and high-need individuals with substance use disorders. The court's goal is to protect public safety and increase the participant's likelihood of successful rehabilitation by utilizing validated risk and need assessments, early and individualized behavioral health treatment, frequent and random substance use testing, incentives, sanctions, and other rehabilitative and ancillary services. Intense community supervision and interaction with a judge in non-adversarial court hearings verify compliance with treatment and other court ordered terms.

There are presently 21 Adult Drug Treatment Courts operating in Nebraska. These courts serve the following counties: Gage; Saline; Jefferson; Fillmore; Thayer; Otoe; Johnson; Nemaha; Pawnee; Richardson; Sarpy; Cass; Lancaster; Douglas; Merrick; Hamilton; York; Butler; Saunders; Colfax; Platte; Seward; Dodge; Washington; Burt; Madison; Antelope; Wayne; Knox; Cuming; Pierce; Holt; Boyd; Rock; Brown; Howard; Sherman; Garfield; Greeley; Custer; Valley; Hall; Buffalo; Adams; Phelps; Kearney; Dawson; Lincoln; Frontier; Gosper; Furnas; and Scotts Bluff. Nebraska's two DUI Courts operate in Scotts Bluff and Lancaster Counties.

Veterans Treatment Courts

In April 2016, the Nebraska Legislature passed LB919, which authorized the expansion of the definition of Problem-Solving Courts to include Veterans Treatment Courts. Just six months after receiving authorization, Nebraska's first Veterans Treatment Court opened on November 4, 2016, in Douglas County. Nebraska's second Veterans Treatment Court opened on April 19, 2017, in Lancaster County. On January 13, 2021, the Nebraska Supreme Court authorized the Central Nebraska Veterans Treatment Court to operate in the Ninth and Tenth Judicial District. Nebraska newest Veterans Treatment Court, The Second Judicial District Veterans Court was approved by the Nebraska Supreme Court August 23, 2023.

Nebraska Veterans Treatment Courts are designed to reduce recidivism in high-risk to reoffend and high-need veterans through a comprehensive and coordinated court response utilizing early intervention, behavioral health treatment, intensive supervision, and consistent judicial oversight. Similar to other Problem-Solving Courts, Veterans Treatment Courts operate under a team approach where a judge, prosecutor, defense counsel, coordinator, community supervision officer, law enforcement, treatment provider(s), Veterans Health Administration and other key team members work together to design an individualized program for each participant.

Veterans Treatment Courts utilize trained volunteer Veteran Mentors to act as role models and provide guidance for veterans. Veteran Mentors help with readjustment issues to assist with reentry into civilian life.

Reentry Courts

In April 2016, the Nebraska Legislature passed LB919, which authorized the expansion of the definition of Problem-Solving Courts to include Reentry Courts. At the direction of the Nebraska Supreme Court's Problem-Solving Court Committee, a group of Nebraska stakeholders created the Nebraska Reentry Court Best Practice Standards. The Nebraska Supreme Court approved the standards on June 20, 2017. The Nebraska Supreme Court authorized the establishment of Nebraska's first Reentry Court in the 9th Judicial District on August 23, 2017. The Nebraska Supreme Court authorized the establishment of a Reentry Court in the 2nd Judicial District on January 3, 2018. Nebraska Reentry Courts are designed for high-risk to reoffend and high-need individuals who are reentering society from incarceration on a term Post-Release Supervision.

Similar to other Problem-Solving Courts, Reentry Courts operate under a team approach where a judge, prosecutor, defense counsel, coordinator, community supervision officer, law enforcement, treatment provider(s), and other key team members work together to design an individualized program for each participant. The court's goal is to protect public safety and reduce recidivism. Intensive community supervision and interaction with a judge in non-adversarial court hearings verifies compliance with treatment and other court ordered terms.

Mental Health Court

In April 2016, the Nebraska Legislature passed and the Governor signed LB919, broadening the definitions of Problem-Solving Courts to include Mental Health Courts. In response, the Nebraska Supreme Court Committee on Problem-Solving Courts appointed a Mental Health Court Subcommittee to establish implementation plans that included the development of best-practice standards for Mental Health Courts. On April 22, 2020, the Nebraska Supreme Court approved the Nebraska Mental Health Court Best Practice Standards. On August 6, 2020, Governor Ricketts signed into law LB1008 providing appropriations to establish Nebraska's first Mental Health Court.

On December 23, 2020, the Nebraska Supreme Court approved the Sarpy County Wellness Court to serve as Nebraska's first pilot Mental Health Court. The Sarpy County Wellness Court is designed to stabilize, assist, and reduce the risk of future offenses for persons with mental illness who have become involved in the Criminal Justice System by providing supervision, treatment, and community resources. The Sarpy County Wellness Court entered its first participant into the program in February 2021.

DUI Treatment Court

On March 24, 2021, the Lancaster County DUI Court was approved as a Pilot Court by the Nebraska Supreme Court and admitted their first participant on July 6th, 2021.

The Lancaster County DUI Court is a post-plea, presentence court program for individuals charged with a felony third offense, aggravated felony DUI, or a felony fourth offense DUI. The Pilot DUI Court targets individuals for admission who have indicators of substance use disorders and are at substantial risk for reoffending or failing to complete a less intensive intervention, such as standard probation or pretrial supervision.

Clinical assessments are utilized to determine the recommended behavioral health treatment for each participant. Validated risk and need assessments are utilized to determine the programming and services needed to address criminogenic needs. Frequent and random chemical testing, intense community supervision, and interaction with a judge in non-adversarial court hearings verify compliance with treatment and other court ordered terms.

Problem-Solving Court Substance Use Testing

Drug courts that perform urine drug testing more frequently experience better outcomes in terms of higher graduation rates, lower drug use, and lower criminal recidivism amongst participants (National Institute on Drug Abuse, 2006). Drug court participants consistently identified frequent drug and alcohol testing as being among the most influential factors for successful completion of the program (Gallagher et al., 2015).

Upon entering a Nebraska Problem-Solving Court, participants receive a clear and comprehensive explanation of their rights and responsibilities related to drug and alcohol testing. Nebraska Problem-Solving Courts adhere to evidenced-based practices to ensure frequent and random drug and alcohol testing. Testing may occur at any time, including non-traditional work hours, evenings, weekends and holidays.

The following is a substance use testing summary for all Nebraska Problem-Solving Court participants. This information was collected and analyzed through the AOC's case management system.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Adult Problem-Solving Court Substance Use Testing

Fiscal Year	FY 21-22	FY 21-22	FY 22-23	FY 22-23	FY 23-24	FY 23-24
	Number of Participants	Number of Drug Tests	Number of Participants	Number of Drug Tests	Number of Participants	Number of Drug Tests

Problem-Solving Court Risk Reduction

Nebraska Problem-Solving Courts target individuals for admission who have indicators of substance use and/or mental health disorders who are at substantial risk for reoffending or failing to complete a less intensive intervention, such as standard probation or pretrial supervision. These individuals are commonly referred to as high-risk to reoffend and high-need individuals. A substantial body of research shows that drug courts that focus on high-risk/high-need defendants reduce crime approximately twice as much as those serving less serious defendants (Cissner et al., 2013; Fielding et al., 2002; Lowenkamp et al., 2005).

The Level of Service/Case Management Inventory (LS/CMI) identifies the risk/need areas and specific criminogenic factors most likely to influence the individual's probability of continuing criminal behavior. These areas are Criminal History, Education/Employment, Family/Marital, Leisure/Recreation, Companions, Alcohol/Drug Problems, Pro-Criminal Attitude/Orientation, and an Anti-Social Pattern.

The following table summarizes LS/CMI admission and discharge scores for adult Problem-Solving Court participants. The table clearly shows significant risk reduction at the end of the Problem-Solving Court intervention. This data was collected and analyzed from the AOCP's case management system.

Adult Problem-Solving Court Risk Reduction

	Average LSCMI at Entrance	Average LSCMI Score at Discharge	Difference in Score	% Change	N
FY 21-22	23.62	12.97	-10.65	-45.08	228
FY 22-23	23.47	13.69	-9.77	-41.65	230
FY 23-24	23.42	13.17	-10.25	-43.76	263

**Overall, the average risk score of participants decreased more than 10 points at the time of discharge.*

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Adult Probation Incentives and Administrative and Custodial Sanctions – Probation staff are trained to swiftly, certainly, and consistently employ incentives and apply administrative and/or custodial sanctions.

All positive progress towards life stability, positive behavior changes and program completion is recognized and incentivized, while all episodes of non-criminal, technical violations (positive substance use testing, missed appointments, failure to pay fines and fees, etc.) are addressed through the imposition of graduated administrative or custodial sanctions.

	FY 21-22	FY 22-23	FY 23-24
Administrative Sanctions	14,982	15,429	15,831
Custodial Sanctions	1,629	1,789	1,719

The Administrative Office of the Courts and Probation participated in a research project with the Urban Institute who assessed Nebraska's incarceration response for the community supervision population. The study, **An Assessment of Community Supervision Incarceration Responses in Nebraska and Utah**, analyzed Nebraska's implementation of justice reinvestment initiatives ushered in by 2015's LB605. The report commented on Nebraska Probation supervising more individuals with felony convictions (50% increase) and those with a higher risk of recidivism. A key takeaway detailed that after the implementation of custodial sanctions not only was there an increase in successful completions of supervision but also a measured reduction in revocations for technical violations. Despite the population of high-risk probationers growing due to legislative changes, the number of violations resulting in incarcerations decreased.

The complete results of this study can be found on the Nebraska Judicial Branch website at <https://supremecourt.nebraska.gov/research-shows-positive-outcomes-felony-probation-supervision>.

Court Ordered Investigations

Presentence Investigations (PSI) -- are ordered by the Court and are designed to assist a judge in determining an appropriate sentence. PSI's present the court with verified information relating to an individual's criminal history, victim's input, details of a crime and relevant personal and environmental background information, in accordance with state statute.

PSIs are also used by the probation office to assist in the assessment of an individual's risk to recidivate and criminogenic needs, which guides the level of supervision and case management of any individual under community supervision.

The presentence investigation is forwarded to the Nebraska Department of Correctional Services (NCDS) for their use in classification and/or program planning when an individual.

	FY 21-22	FY 22-23	FY 23-24
Total Investigations	10,373	10,285	10,914

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Post-Release Supervision (PRS) Plans – are compiled in collaboration with the Nebraska Department of Correctional Services (NDCS), the Office of Parole Administration (Parole), or a county jail. The post-release supervision plan details all programming completed, evaluations conducted, misconduct reports, classification studies, institutional assessments and services received, while the individual was incarcerated or under the supervision of parole, as well as any reductions in risk associated with completed programming and documented behavior change.

Prior to an inmate's discharge from NDCS custody on to PRS, Probation staff submit a revised Post-Release Supervision Plan to the sentencing court including a community needs and services assessment which details specifics related to proposed plans for housing, employment, medication management and health care plans, child support, if ordered, available positive supports, and victim status and safety plans.

JRI legislation modified several Nebraska Statutes, providing for post-release supervision on certain Class III, IIIA and IV Felony offenses committed on or after the bills effective date of 8/30/2015. The first post-release supervision eligible individual transitioned out of prison in early 2016 and the first post-release supervision plan occurred on February 18, 2016.

	FY 21-22	FY 22-23	FY 23-24
Total PRS Plans	668	550	561

Risk Assessment Instruments

Level of Service/Case Management Inventory (LS/CMI) – is an internationally recognized, normed and validated actuarial based risk assessment tool designed to assist in determining an individual's overall risk to reoffend, as well as to prioritize the management and case and treatment planning for male and female adults. The LS-CMI is used in all District Court cases, as well as other specified misdemeanor populations out of Nebraska's County Courts.

The LS-CMI was re-validated for use within Nebraska Probation in a study conducted by the University of Nebraska Law and Psychology Department in 2015. During this study, the Law and Psychology Department also looked for, and ruled out, bias in the statewide application of the tool, and helped identify a need for enhanced training to improve interrater reliability across tool application. On the heels of the research, the AOC developed quality assurance measures and undertook LS-CMI refresher training for all staff to enhance the fidelity in instrument application.

Nebraska Adult Probation Screen-Risk (NAPS-R) – is a screening tool utilized in County Court criminal and driving under the influence (DUI) cases, to determine an appropriate assessment instrument to administer, as well as determining risk of recidivism and suitability for probation supervision. This instrument is an objective, numerically scored, gender-specific instrument designed and validated, based on Nebraska 2004-2009 male and female populations.

The NAPS-R is administered to all individuals placed on direct probation, as well as those individuals

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

referred for investigation by the County Court. The NAPS –R was re-validated for use within Nebraska Probation in a study conducted by the University of Nebraska Law and Psychology Department in 2015.

Nebraska Adult Probation Screen-Needs (NAPS-N) – is an assessment tool developed specifically for Driving under the Influence (DUI) and/or misdemeanor criminal offenses and is designed to determine the supervision level and criminogenic needs of an individual in conjunction with the Nebraska Adult Probation Screen – Risk.

The NAPS –N was re-validated for use within Nebraska Probation in a study conducted by the University of Nebraska Law and Psychology Department in 2015.

Vermont Assessment of Sex Offender Risk-2 (VASOR-2) – assesses risk among adult males who have been convicted of at least one qualifying sex offense. It is composed of a 12-item re-offense risk scale, and a 4-item severity factors checklist. The re-offense risk scale is statistically derived, and designed to assess risk for sexual and violent recidivism. The factors checklist is clinically derived and is designed to describe the severity of the offense.

Sex Offender Treatment Intervention and Progress Scale (SOTIPS) – is a 16-item statistically-derived dynamic measure designed to aid clinicians, correctional caseworkers, and probation and parole officers in assessing risk, treatment and supervision needs, and progress among adult male sex offenders. The SOTIPS is scored initially and in conjunction with the VASOR-2 and is also completed for purposes of reassessment every 180 days or as needed upon significant circumstances within a case.

The VASOR-2 and SOTIPS can be used as part of a static and dynamic risk assessment, and combined scores have predicted sexual recidivism better than either instrument alone. The VASOR-2 and SOTIPS are utilized in addition to the LS-CMI in any adult male case in which the precipitating behavior was sexual in nature.

Domestic Violence Offender Matrix (DV Matrix) – is a risk assessment utilized in addition to the LS-CMI in any offense in which the precipitating behavior included aspects of domestic violence. While it is not a prediction of future behavior, it is an assessment of current behaviors and how they relate to overall risk to the victim.

Reassessment – While probation officers informally perform assessment of on-going risk at each interaction, all probation cases are formally reassessed at a minimum of once every six months on the highest-risk populations, unless there is a significant occurrence that prompts the need to reassess the case outside of that timeframe.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Supportive Services

Substance Use Testing – is conducted as directed by the Court; adult probationers are subject to random, unannounced testing to assist in establishing a period of sobriety. Effective alcohol and other substance testing is an integral part of effective community supervision and can provide an objective measure of treatment effectiveness. The results of these tests can provide the basis for incentives, sanctions and therapeutic interventions, all which are the underlying pillars for individual's success. As alcohol and other substances vary substantially in their windows of detection, a variety of testing methodologies are available to assist individuals in abstaining from substance use. Drug screens can be conducted on-site, in-home, and in the field utilizing multiple matrices such as urine analysis, moh swabs, sweat patches and preliminary breath tests.

When applicable, individuals are assessed a monthly fee of \$5.00 towards the cost of testing, which is supported by the Substance Use Testing cash fund.

Number of Drug Tests by Classification

	FY 21-22	FY 22-23	FY 23-24
Classification	# of Drug Tests	# of Drug Tests	# of Drug Tests
Alternatives to Incarceration/ISP	178,095	187,928	190,168
PRS	31,199	37,248	40,010
Medium/Low	100,249	107,899	122,833
Other	31,231	40,292	44,402
Unclassified	925	1,002	960
Total	352,875	374,369	398,373

Electronic Monitoring (EM) - encompasses two (2) types of electronic devices designed to enhance supervision: Radio Frequency and Global Positioning System (GPS), which requires a tamper-proof monitoring anklet to be worn by the individual twenty-four (24) hours a day and seven (7) days a week. The individual shall remain on EM for the entire period as directed by the sentencing court or sanctioning officer. While use of these devices does not guarantee community safety or exclusively manage behavior on its own, such monitoring does enhance an individual's ability to be supervised in the community while participating in daily pro-social activities such as employment, education, treatment or other programming.

EM is an administrative cost for individuals meeting the target population and criteria and funded by general and cash funds of the Community Corrections program.

Electronic Monitoring – Adult Probation and Problem-Solving Courts

Electronic Monitoring	FY 21-22	FY 22-23	FY 23-24
Individuals Served	54	48	44

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Continuous Alcohol Monitoring (CAM) - measures the individual's perspiration for the presence of alcohol excreted trans-dermally through the skin. It is a tool of supervision for use when an individual is involved in substance use treatment, has an extensive history of alcohol-related incidents, demonstrates continued use of alcohol despite negative consequences and shows an unwillingness to discontinue use.

Individuals are financially responsible for payment for the costs associated with CAM. Said costs are subject to a sliding fee scale.

Funding for CAM comes from both the general and cash funds of the Community Corrections program.

Continuous Alcohol Monitoring – Adult Probation and Problem-Solving Courts

Continuous Alcohol Monitoring	FY 21-22	FY 22-23	FY 23-24
Number Served	606	442	610

Electronic Reporting System (ERS) -- is a service used to help manage large caseloads of those individuals assessed as the lowest risk to recidivate. Individuals on ERS report through a telephonic system monthly to provide relevant changes regarding their information.

Individuals supervised through ERS are required to comply with their Order of Probation, submit to substance use testing as ordered, meet financial requirements, and participate in any programming required by the Court

ERS maintains all case notes and contact history. A recent program enhancement now doubles the number of notifications to individuals late on their reporting calls to help promote successful completion of their monthly check-in requirement. This feature enables a text to be sent first with the call back number followed by the standard automated phone call.

Staff are also able exchange text messages directly with individuals through ERS and send reminders for important requirement deadlines.

Funding for ERS comes from both the general and cash funds of the Community Corrections program.

Rehabilitative Services

Rehabilitative Services, Financial Assistance – Created in 2006 to reduce the financial barriers for high risk and need adult individuals in need of evaluation and/or treatment services. The Nebraska Legislature allocated funds to Probation to provide financial assistance for individuals who otherwise would be unable to access/afford need behavioral health supports and services. Financial assistance initially covered only substance use disorders, however, in 2014 services were expanded to include mental health/co-occurring evaluations and treatment and sex offense specific services. In 2015 treatment for gambling was added.

This financial assistance is not intended to eliminate the need for accountability and financial responsibility, rather, it serves as another resource available to an individual when financial barriers exist. Individuals are expected to contribute toward the financial obligations associated with services using the AOC's sliding fee scale. Financial assistance is available only after all other financial resources have been exhausted.

By Supreme Court Rule, any individual receiving services must receive those services through a Probation Registered Service Provider. These services may be provided in an office setting or remotely through a teleservices network.

Adult Fee for Service, Financial Assistance is funded by both general and cash funds of the Community Corrections program.

Adult Behavioral Health Financial Assistance by Service Type

Service Type	Amount FY21-22	Amount FY22-23	Amount FY23-24

Total	\$5,942,699	\$4,804,666	\$5,289,625

(Please note non-clinical services are not included in this report. It is also noted with the expansion of Medicaid in Nebraska beginning October 1, 2020, many more individuals on probation, post-release supervision, and problem-solving courts have become eligible for this benefit.)

Transitional Living Financial Assistance - Created to increase success for probation, post-release supervision, and problem-solving court individuals. Transitional Living provides short-term, stable housing for individuals at high risk to reoffend while improving community safety. The initiative places individuals in a supportive environment, enabling them to concentrate on treatment and/or employment, reintegrating into the community, with the goal of becoming self-sufficient. Simultaneously, this provides a greater ability to know the whereabouts of individuals under court ordered supervision.

Transitional Living Financial Assistance is funded by combined federal, general and cash funds.

Transitional Living Eligibility Requirements

- Supervised on probation, post-release supervision or problem-solving courts
- Sentenced as a felony offense or as a Class I Misdemeanor for Domestic Violence, Sex Offense or DUI-III or higher
- High Risk to reoffend
- Housing instability
- Lack resources to pay for suitable housing
- Ordered to Transitional Living through the Courts

FY 2022-2023	72%	9%	7%	8%	2%	2%	8,864
FY 2023-2024	71.9%	9.9%	6.8%	7.3%	2.5%	1.6%	8,965

Discharges and Revocations of Adults Sentenced to Post-Release Supervision

Discharges	Successful Completion	Unsuccessful Completion	Revoked New Crime	Revoked Technical Violation	Revoked Other or Not Specified	Other	N
FY 2021-2022	41%	20%	14%	16%	3%	6%	1,301
FY 2022-2023	44%	24%	12%	12%	5%	3%	1,092
FY 2023-2024	42.1%	23.2%	11.8%	12.0%	6.9%	4.0%	994

**Unsuccessful Completion arises when courts terminate an order of post-release supervision when financial obligations have not been met, required days of custodial sanctions have not been met to face revocation, or other factors have intervened not allowing the post-release individual to satisfy all conditions and case management included in the Court Order. Other includes Death, Deported, or district override.*

Felony Revocations to Incarceration - Please note there are a number of possible outcomes when an individual is revoked from a term of probation. These include, but may not be limited to, revocation to the department of corrections, a county jail, imposition of a fine, and/or additional probation. The information below only addresses those individuals with a term of probation revoked on a felony charge, out of a District Court sentenced to a term of incarceration upon revocation.

Individuals revoked due to a new law violation are indicated as such. These would not include minor traffic offenses or infractions. Technical violations are wide ranging and include all probationer non-compliance from failure to pay fines and fees, to missed or positive substance use testing, failure to attend or complete treatment, to absconding from supervision, among other things.

ADMINISTRATIVE OFFICE OF THE COURTS & PROBATION

Law Violation	FY 21-22	FY 22-23	FY 23-24
Prison	125	111	175
County jail	200	157	128
Total	325	268	303
% to Prison	38%	41%	58%
Technical Violations	FY 21-22	FY 22-23	FY 23-24
Prison	107	89	84
County jail	248	147	146
Total	355	236	230
% to Prison	30%	38%	37%

Risk Reduction of High Risk to Reoffend Individuals - Calculated on individuals who successfully completed a term of probation or post-release supervision and assessed at a high to very high risk to reoffend score on the LS/CMI and compared with their LS/CMI reassessment score upon discharge.

Probation

Fiscal Year	Average 1 st LSCMI Score	Average Last LSCMI Score	Change in LSCMI Score	% Change
FY 2021-2022	25.50	21.10	-4.40	-17.20%
FY 2022-2023	25.80	20.50	-5.20	-20.30%
FY 2023-2024	28.10	23.10	-4.90	-17.60%

Post-Release Supervision

Fiscal Year	Average 1 st LSCMI Score	Average Last LSCMI Score	Change in LSCMI Score	% Change
FY 2021-2022	27.90	25.40	-2.50	-9.10%
FY 2022-2023	27.50	24.50	-3.00	-10.90%
FY 2023-2024	25.50	20.10	-5.40	-21.20%
