Nebraska County Courts Weighted Caseload Report

Nebraska has a separate juvenile court in Douglas, Sarpy, and Lancaster counties. Pursuant to Neb. Rev. Stat. § 43-2,119, the Legislature determines the number of separate juvenile court judges who serve in counties which have established a separate juvenile court. An objective assessment of judicial workload allows informed decisions about district boundaries and the number of judges needed to timely resolve the cases in each of the counties that has a separate juvenile court.

To assist in evaluating judicial workloads, Neb. Rev. Stat. § 24-1007(1) requires the Nebraska Administrative Office of the Courts and Probation (AOC) to compile judicial workload statistics based on caseload numbers weighted by category of case. These weighted caseload statistics are used by the Judicial Branch, the Judicial Resources Commission, and the Legislature to evaluate judicial need, and guide decisions and recommendations on how best to allocate judicial resources across the state.

To ensure the validity, uniformity and accuracy of the AOC's judicial workload statistics, a statewide judicial time study was conducted in 2019-2020 under the direction and leadership of the National Center for State Courts. For a full description of the judicial time study and the recommended weighting methodology and standards, see *Nebraska Judicial Workload Assessment Final Report* (October 2020) (this is noted on tables in this report with an asterisk) on the Nebraska Supreme Court Website. Because this Weighted Caseload Report uses the methodology and standards from the 2020 workload assessment, direct comparison to archived reports is not recommended.

Weighted caseload statistics approximate the number of judges a district needs to handle the current caseload based upon the calculations of a three-year rolling average of case filing data. Therefore, when weighted caseload statistics are examined in conjunction with other compelling and critical metrics, they provide a vital part of an objective and standardized assessment of judicial needs and the fair allocation of judicial resources across juvenile courts in the State of Nebraska.
