

District Court Equipment

The Douglas County District Courtrooms have at their disposal equipment purchased by the Omaha Bar Association (OBA) for use in courtrooms as needed. All of this equipment is on portable carts and is reserved through the OBA and court administrator's office and then set up by court administration staff on the scheduled date. The equipment may be used in any of the 16 court rooms of the district court. The following list of equipment owned by the OBA is available for use:

- 2 – 32" Televisions with built in DVD players
- 1 – 27" Television
- 1 – 25" Television with built in VCR
- 1 – Component DVD Player
- 2 – Component DVD/VCR Players
- 1 – Component Document Camera
- 1 – Video Presentation Station (VPS) which includes the following
 - 3 – 20" monitors (1 for bench and 1 for each counsel table)
 - 1 – 52" television monitor (for jury and general courtroom) [can be used with video components listed above if VPS not in use]
 - 1- Document Camera
 - 1- 20" Starboard Software Annotation Monitor with Stylus for annotation
 - 1 - Cart with all built in equipment hookups, equipment selector, power supply and DVD/VCR combo unit.

The court administrator's office through DOT.Comm provides a laptop PC with the Starboard Software loaded for use with annotation program listed above.

The court administrator's office also provides and projector and portable screen to anyone who might need those things in their courtroom presentation. This projector will hook to any PC via video or USB connection.

The Clerk of Court for Douglas County owns a LifeSize Video Conferencing System with programmable camera. This system is coupled with a 52" television monitor and can be used with other components if needed.

All 16 courtrooms have analog phone jacks for use with 4 speaker enabled conference phone systems owned by the district court. Again, these phones are available in any courtroom in which they are needed. Each courtroom is also hardwired for network connection at the bench and the clerk station for use by staff with the various applications available via the network.
