

Adult Community-Based Intervention (CBI) Policy

Approved: 
Date: June 2012

I. Policy

Adult Community-Based Intervention (CBI) Probation is a supervision approach intended for probationers who are considered to be at a high risk to reoffend and shall be the second priority of supervision resources for the Nebraska Probation System (including Interstate Compact In: Receiving Transfer cases.) This supervision level is most successful when an intensive level of supervision is utilized in conjunction with the appropriate treatment services.

The following probationers shall be considered for Adult Community-Based Intervention (CBI) Probation supervision:

- A. Probationers identified through a valid assessment instrument to be at a high risk for recidivism.
- B. Probationers whose offense was serious enough in nature to require an intensive level of supervision.
- C. Probationers who have failed previously at a lower level of community supervision as an alternative to revocation.
- D. Ordered as an intensive supervision probation disposition from the court.
- E. Probationers on probation for sex and/or domestic violence offenses, and third offense drunk drivers and above not involved in the Specialized Substance Abuse Supervision (SSAS) program.

II. Purpose

To provide a foundation for Adult Community-Based Intervention (CBI) Probation.

Neb. Rev. Stat. § 28-1010, Indecency with an animal

Neb. Rev. Stat. § 28-1463.03, Visual depict/sex explicit conduct

IV. Procedure

A. Adult Community-Based Intervention (CBI) Probation level of supervision is established during the investigation stage or after sentencing if it is a direct probation. Probationers shall be advised of Adult Community-Based Intervention (CBI) Probation expectations as part of the initial district supervision at intake onto probation. Each probationer shall have an individualized plan for case management clearly articulated as part of the file documentation, addressing problems and identifying appropriate interventions as determined during the assessment of risk and needs at intake, during the PSI or as part of the post-release supervision planning efforts. Probation officers shall facilitate an appropriate Dosage of services, and utilize the responsivity principle for all CBI offenders.

B. Because certain populations of probationers present unique challenges in case management, a special approach to management of these cases is taken and special programming is used in targeting these unique needs for those involved in CBI Programming:

1. Domestic Violence
2. Sex Offender
3. Third Offense and Above Driving Under the Influence (DUI)

C. All probation officers supervising an Adult Community-Based Intervention (CBI) Probation case shall have the appropriate probation experience, training, and skills.

D. Services

Services are the resources necessary to address and reduce criminogenic risk factors and recidivism. Service delivery is accomplished through a variety of methods including staff delivery, as well as brokering and contracting with agencies in the community. Some of these services include but are not limited to:

1. Reporting Centers
2. The Standardized Model for the Delivery of Substance-Abuse Services
3. Fee for Service Voucher Assistance
4. Continuous Alcohol Monitoring Financial Assistance
5. Cognitive Groups
6. Substance Abuse Testing

7. Electronic Monitoring/GPS
8. Victim Services
