## Juvenile Community-Based Intervention (JCBI)

### High/High Moderate Risk Juveniles

JCBI is intended for those juveniles who score at High/High Moderate risk and are in need of higher intervention. JCBI is most successful when it combines intensive case management techniques with treatment.

#### Juvenile Description and Assessment Scoring:

- 1) Considered high risk and in need of intervention by YLS/CMI.
  - **Score of 16 or above on the YLS/CMI**
- 2) Considered appropriate for JCBI when seriousness of offenses requires intensive supervision and case management.
  - **Score of 15 or below**
- 3) Has failed previously at a lower level of community supervision but is considered appropriate as an alternative to revocation or out of home care.
  - ❖ **Score of 15 or below**

#### In addition to conditions ordered by the court, the juvenile will be supervised through a combination of:

- Enhance Family engagement/team meetings
- Specialized coordinated Case management
- Cognitive restructuring and group facilitation
- Engagement with Provider/School in the field
- Home Visits

#### For added community safety, consider electronic monitoring as a tool when one or more of the following is evident:

- Community & Family Reentry
- A history of Failure to Appear
- A runaway/flight risk

#### Supervision Options include:

- ❖ Access to needed treatment/non-treatment based services.
- ❖ Fee for Services/Evaluations/Services
- ❖ Reentry Transition Planning

## Juvenile Community-Based Resource (JCBR)

### Low Moderate to Low Risk Juveniles

Juvenile Community-Based Resource (JCBR) is intended for those juveniles who score at Low Moderate to Low risk to return to the criminal justice system and are in need of some intervention. Community Supervision is most successful when it combines an equivalent level of supervision and appropriate community based services

#### Juvenile Description and Scoring:

##### Low Moderate to Low Risk

Considered low moderate to low risk for recidivism by YLS/CMI or NYS assessments with identified domain driving score.

- **Score of 15 or under on the YLS/CMI**
- Consider additional conditions of probation whenever a specific risk domain falls within a high range.

- ❖ Includes active supervision and brokers-out for services as needed.

#### In addition to conditions ordered by the court, the probationer is supervised through a combination of:

- Face-to-face contacts
- Educational requirements
- Individual/family case management
- Cognitive and educational groups, and
- Condition verification.

#### Supervision Options include:

- ❖ Access to needed treatment/non-treatment based services.
- ❖ Fee for Services/Evaluations
- ❖ Non-Treatment Services
